“You can design and create and build the most wonderful place in the world. But it takes people to make the dream a reality.”

- Walt Disney

DESIGNING YOUR AQUATIC SPACE

We all need to rest, refresh and have fun. A swimming pool is a great escape from our day-to-day lives and is ideal for getting the kids out of the house and active. A well-designed pool can become your own personal oasis.

At ClifRock our mission is to help you get the most out of your aquatic space by optimizing the aesthetic value, fun factor and overall experience. We believe your pool should not only improve the attractiveness of your property, but also enhance the quality of your time spent outdoors with loved ones. We have helped thousands of customers create the perfect pool water feature for their backyard space and lifestyle.

In the following pages we want to help you identify possible pool water feature designs as an important step in planning your backyard oasis. Our *Pool Water Feature Book of Designs* is intended to help you understand:

1. Pool shapes and construction
2. Guidelines for design
3. Feature options for best outcome
4. Design concepts and ideas

BENEFITS OF POOL WATER FEATURES?

Pool water features have an amazing ability to transform your swimming pool into a focal point and add that wow factor.

1. **Sounds** – enjoy the soothing sound of running water, and the heart-warming sounds of laughter and excitement
2. **Entertainment** – enhance the entertainment value of your pool with seating and fire features; or add a Fun Factor with jumping boulders and waterslides
3. **Lifestyle** - get your family outside and active
4. **Healthy Pool** – moving water aerates the pool and adds oxygen to the water, creating surface action which helps keep the pool clean
5. **Value** – a well-designed pool water feature will increase your home's overall value
6. **Beauty** – convert a "boring" pool into a cherished backyard living area

PARTNERS

As a leader in Outdoor Living design and Pool Water feature construction, ClifRock has built a reputation for delivering value and quality to our customers. Accordingly, we only partner with companies and manufacturers who share our passion for innovation, quality and value. The below companies represent what we believe to be best-in-class manufacturers who excel in terms of quality, innovation and safety. The companies allow us to bring you complete solutions:

AWG is the proud manufacturer of premier water feature products with over 30 years of history in the field. Atlantic is the leading supplier of spouts, spillways, lighting and much more; all of which can be installed in and around your pool, landscape, or Clifrock system.

Hearth Product Controls Company (HPC) is a US-based leading manufacturer of outdoor fire and water features. HPC has built their reputation on safety, technology, and are a leader in gas fire pit innovation, offering a comprehensive line of copper fire and water features.

American Aqua Works is a US-based manufacturer of pool waterslides. With over 35 years in commercial and residential waterslides they aim to deliver slides that are thrilling, faster and safer. AAW also manufactures sectional lazy rivers and patio pools.

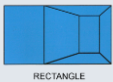

For over 25 years, the Sheer Water Designs team has been designing and manufacturing innovative and unique sheer water features for the aquatic industry. Some of these products include Sheer Storm, Sheer Rain and Sheer Wave.

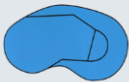

POOL SHAPES

Pools are built in different shapes and sizes. When planning a Pool Water Feature it is important to consider:

- 1) The overall size and shape of your pool
- 2) The size and shape of your pool deck
- 3) The intended use of the pool and pool deck
- 4) The traffic flow of your pool deck
- 5) The existing poolside landscape and hardscape

RECTANGLE

KIDNEY

GEOMETRIC POOLS

Design Guidelines

- The symmetry and balance of masonry water features effectively complements geometric shaped pools
- When utilizing boulder designs, thin-stacked, sharp-edged boulders are recommended to maintain order and symmetry

MASONRY DESIGNS

Contemporary and Rustic designs
Pg. 10 - 34

CONTOURED POOLS

Design Guidelines

- The free-formed nature of boulder features effectively complement contoured pools
- Range of options on boulder designs
- If masonry style is desired, structure should mirror the contours of the pool

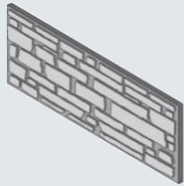

BOULDER DESIGNS

Lagoon and rockscape designs
Pg. 35 - 49

MASONRY CONSTRUCTION

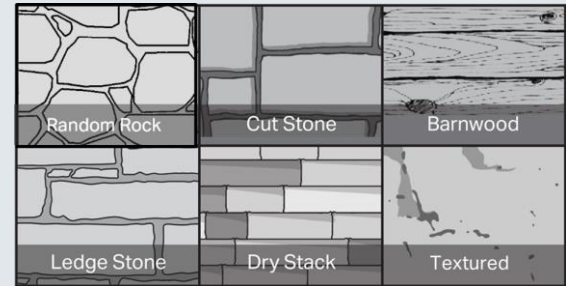

Panel Masonry Technology™

ClifRock Panel Masonry Technology™ is the smart alternative to block and traditional masonry applications when building your pool water feature. This technology combines the traditional appearance of stone with technologically-advanced 1" to 1½" thick panels, dramatically reducing weight in comparison to conventional masonry materials, such as stone and wall block. For either contemporary or rustic pool water feature designs, ClifRock Masonry Panel Technology is the ideal construction solution. In addition to reducing weight, the panel construction method can be built over most surfaces without the need for any frame or footing and provides an open cavity for running plumbing.

BOULDER CONSTRUCTION

Engineered Boulder Panels™

ClifRock Engineered Boulder Panels™ are the practical way to get the exact look and feel without the weight, cost and instability of real boulders. Boulder and lagoon style pool water features can be a challenge to build on existing pool structures with natural stone boulders often weighing two-tons each. Our precast ½"-1" thick engineered boulder panels can be crafted on-site into massive monolithic boulder mountains or even simple 3 boulder waterfalls without the need for heavy machinery or extensive footings. Aesthetically, the panel-built rock formations mirror the look and feel of their natural counterparts as the panels are direct imprints from real stone ledges and rock cliffs found around the country. In addition, they are designed to be just as strong and resistant to the elements as real boulders – the panel material will not break down under environmental stresses, UV rays, pool chemicals or salt, and can withstand heavy weight loads, ground movement and blunt impacts.

Material Technology

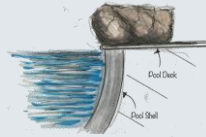

ClifRock panels are precast utilizing a micro-fiber reinforced composite concrete. This material is not only 4x stronger than wet cast concrete, it also has the ability to bend without failing and is self-bonding.

MASONRY FEATURE DESIGNS

The following section includes over 30 masonry style water features that can be built over almost any pool using the ClifRock Panel Technology.

Pillar Designs

Pool Water Feature Pillar Designs are a simple solution for smaller pools and pool decks. Pillars can be paired with a masonry bench, planters or with a fire/water bowl.

Water Pillars-Small

DESCRIPTION

2' W x 2' D x 3' H Masonry Pillar structure with a 12" ColorFalls Spillway.

DESCRIPTION

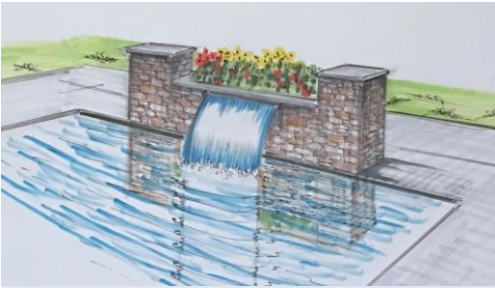

3' W x 3' D x 2' H Masonry Pillar structure with a 12" ColorFalls Spillway.

Feature Options

- 12" Spillway upgrade to Color Changing Falls or 316 SS Formal Spillway
- Add Fire, Water or Planter Bowl

Pillar Designs

Pillar Planter-Medium

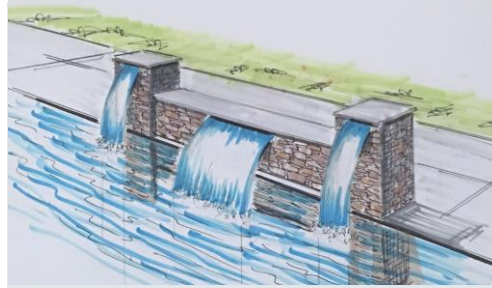

DESCRIPTION

8' W x 2' D overall with 4' W x 36" H middle planter box and 2' W x 42" H pillar ends masonry structure with a 36" ColorFalls Spillway.

Feature Options

- Spillway upgrade to Color Changing Falls or 316 SS Formal Spillway
- Add Fire Bowl to pillar ends

Pillar Bench-Large

DESCRIPTION

10' W x 2' D overall with 6' W x 2' H middle bench and 2' W x 3' H pillar ends masonry structure with two 12" and one 36" ColorFalls Spillway.

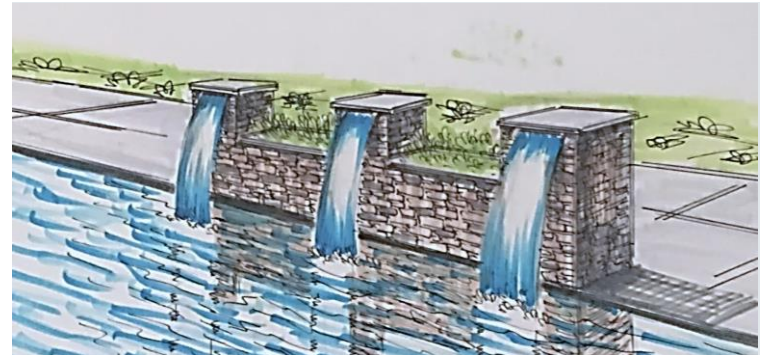

Feature Options

- Spillway upgrade to Color Changing Falls or 316 SS Formal Spillway
- Add Fire Bowl to pillar ends

Atlantic Water Gardens ColorFalls Spillway produces a concealed sheer of lighted water to enhance your aquatic space. ColorFalls can be installed into any vertical masonry water feature and is available in four colors.

Pillar Designs

Fire Bowl Pillar—Large+

DESCRIPTION

10' W x 30" D x 42" H overall with two 30" W x 30" D x 42" H pillar sections and a 5' W x 30" H bench spillways section and a 36" 316 Stainless Steel Spillway with two HPC fire-water bowls.

Feature Options

- Add Lighting

Pillar Spillway Planter—Large+

DESCRIPTION

10' W x 2' D overall with two 2.75' W x 30" H planter sections and three 18" W x 42" H pillar sections with three 12" ColorFalls Spillways.

Feature Options

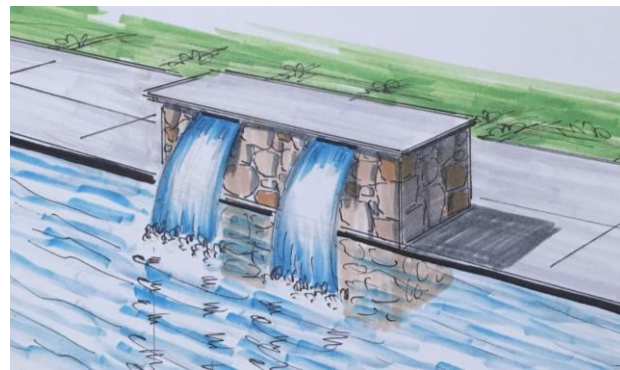

- Spillway upgrade to Color Changing Falls or 316 SS Formal Spillway
- Add Fire or Planter Bowl to pillar ends

Water Bench Designs

Pool Water Feature Bench Designs are a simple and economical way to add functionality and a focal point to your aquatic space.

Water Bench-Small

DESCRIPTION

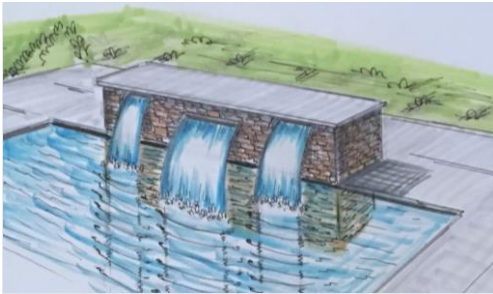

6' W x 2" H x 2' D Masonry water bench structure with two 12" ColorFalls Spillways.

Feature Options

- Spillway upgrade to Color Changing Falls or 316 SS Formal Spillway
- Add Planter Bowl

Bench Designs

Water Bench-Medium

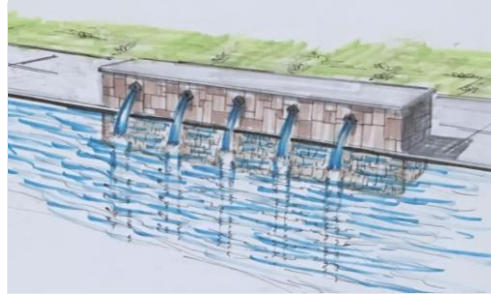

DESCRIPTION

8' W x 24"H x 30" D Masonry water wall structure with a 24" and two 12" ColorFalls Spillways.

Feature Options

- Spillway upgrade to Color Changing Falls or 316 Formal Spillway
- Add Fire Feature or Fire Bowl

Water Bench-Large

DESCRIPTION

10' W x 18"H x 30" D Masonry Pillar structure with a 5 Atlantic Wall Spouts.

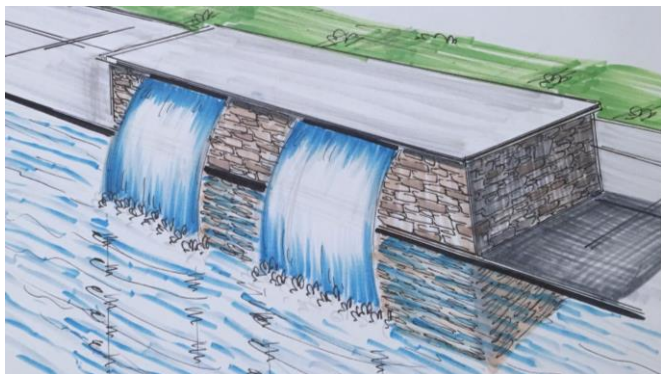

Feature Options

- Select wall spout style
- Add Lighting

Atlantic Water Gardens Wall Spouts are an easy and elegant way to add the sight and sound of water to your pool. Ideal for smaller pool water features or as an accent to larger spillways. AWG Spouts come in oil rubbed bronze and two architectural designs.

Bench-Wall Designs

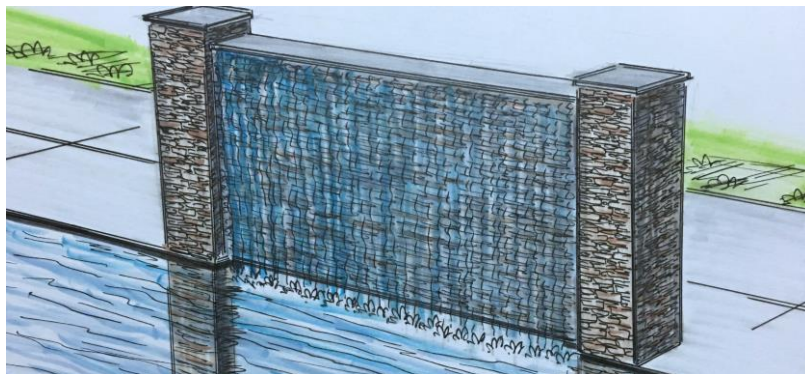

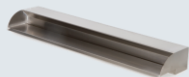

Water Bench—Large+

DESCRIPTION

10' W x 2' H x 42" D masonry structure with two 36" 316 Stainless Steel Formal Spillway.

Feature Options

- Spillway upgrade to Color Changing Falls
- Add Fire or Planter Bowl

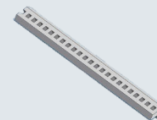

Water Wall Design—Large+

DESCRIPTION

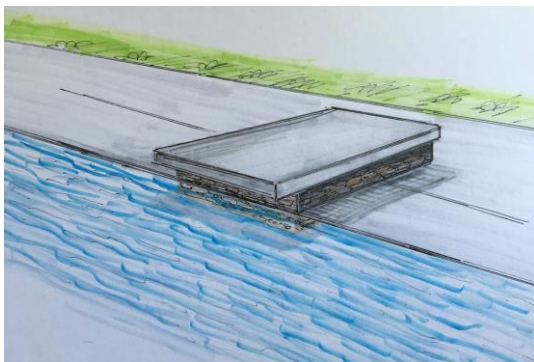

10' W x 7' H x 2' D overall with 7' W x 6' H x 18" D middle wall and 18" W x 7' H x 18" D pillar ends and 6' Rain Storm curtain.

Feature Options

- Add Fire or Planter Bowl

Jumping Platform Designs

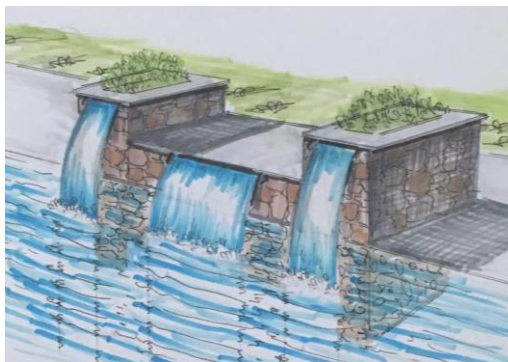

Jumping Platform-Small

DESCRIPTION

3' W x 5' D x 18" H masonry base with extended 42" W x 6' D x 4" H jumping platform.

Feature Options

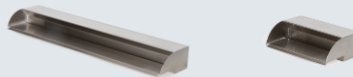

- Add Lighting
- Add Sheer Wave

Planter Platform-Large

DESCRIPTION

8' W x 42" D overall with 2' W x 3' H raised planter boxes and a 4' W x 18" H center platform with two 12" and one 36" 316 Stainless Steel Formal Spillway.

Feature Options

- Extended diving platform
- 7" back step

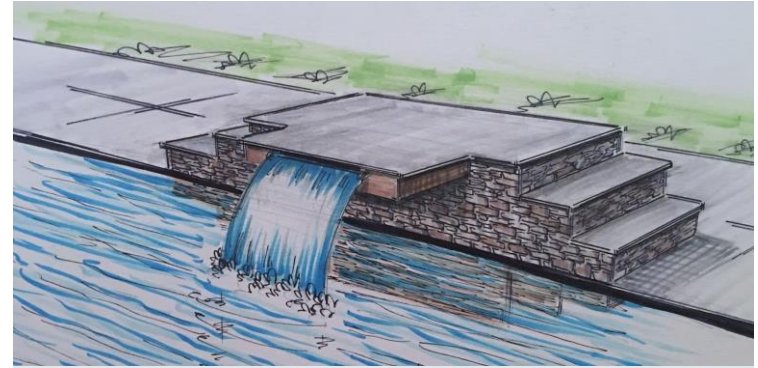

Atlantic Water Gardens

Lighting your pool water feature is an important consideration in planning and designing your aquatic space. Atlantic Water Gardens Color Changing Falls and Lighting solutions are the perfect way to illuminate your pool. Color Changing Falls and Color Changing LED lights can be synchronized and offer 48 different color options.

Jumping Platform Designs

Jumping Platforms are a simple way to add fun and excitement to your aquatic space. Platforms can be accessed from the pool deck and extend over the deep end of the pool.

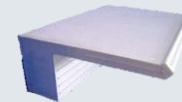

Jumping Platform-Large

DESCRIPTION

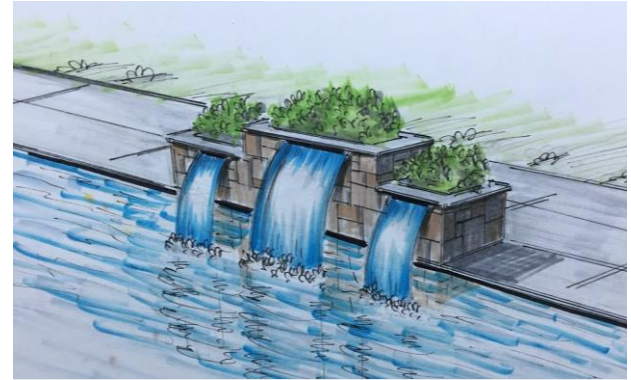

10' W x 42" D overall with four 12" W x 7" H steps and a 6' W x 21" H platform and 4' W x 3' D Diving platform and a 24" Sheer Wave Spillway.

Feature Options

- Add Lighting
- Sheer Rain Spillway

Planter Designs

Step Planter-Small

DESCRIPTION

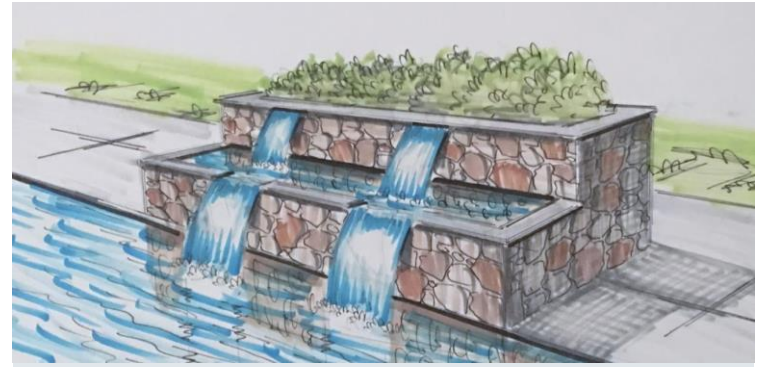

6' W x 30"D overall with 3' W x 30" H raised center and two 18" W x 18" H step down side Masonry water wall structure with two 12" and one 24" 316 Stainless Steel Formal Spillways.

Feature Options

- Add Lighting

Planter Designs

Planter Box-Large

DESCRIPTION

10' W x 42" H x 42' D Masonry Planter structure with two 12" and a 36" 316 Stainless Steel Formal Spillway.

Feature Options

- Add Lighting

Planter Cascade-Large

DESCRIPTION

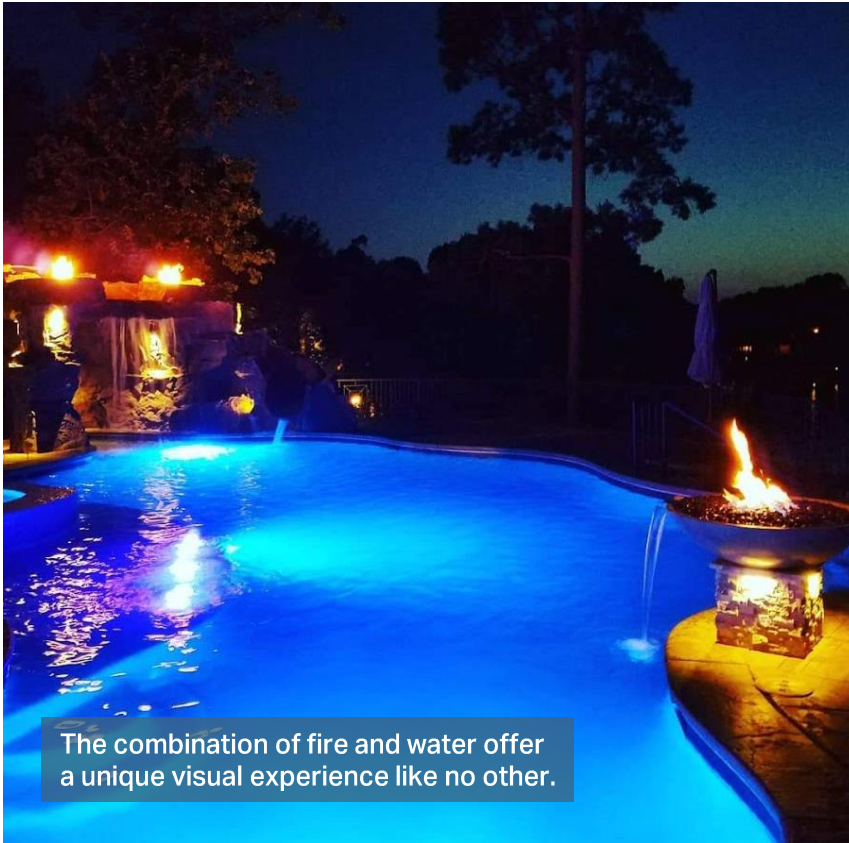

10' W x 4' H x 2' D overall with 2' H front basin and spillway and 4' back planter masonry structure with four 12" 316 Stainless Steel Formal Spillways.

Feature Options

- Add Lighting

Fire Designs

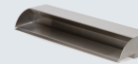

The combination of fire and water offer a unique visual experience like no other.

Fire Bench-Small

DESCRIPTION

6' W x 18"H x 2' D Masonry water-fire bench structure with one 24" 316 Stainless Steel Formal Spillway and one 25" x 8" HPC Linear Burner

Feature Options

- Add Lighting
- Electronic ignition

Fire Designs

Fire Bench-Medium

DESCRIPTION

6' W x 24" H x 24" D Masonry water wall structure with two wall spouts one 24" 316 Stainless Steel Formal Spillway and one 25" x 8" HPC Linear Burner.

Feature Options

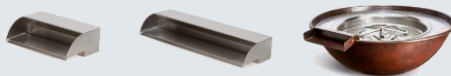

- Select a spout
- Electronic ignition

Fire Step-Large

DESCRIPTION

8' W x 2' D overall with 4' W x 30" H raised center and 2' W x 30" H outer step Masonry structure with two 12" and one 24" 316 Stainless Steel Formal Spillways.

Feature Options

- Electronic ignition

Hearth Product Controls (HPC)

Copper Bowl Series is available in fire & water or fire-only. Both are fitted with certified fire pit inserts and are available with an oil rubbed hammered or smooth finish. These bowls offer a dynamic visual experience and help create an impressive aquatic experience.

MASONRY WATERSLIDE DESIGNS

Slide Designs

ClifRock Slide Designs

12' Honu

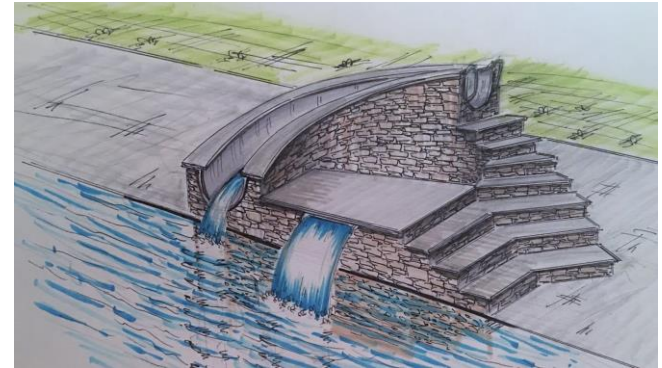

13' Huli Jr.

19' Huli

ClifRock and American Aqua Works

ClifRocks Panel Masonry and Engineered Boulder panel systems provide the ultimate in flexibility to design water features around pool slides. In collaboration with the designers at American Aqua Works we have specified three slides that will fit in most aquatic spaces and be as thrilling as they will be safe for riders of all ages. The Honu and Huli slide options offer approximately 12' to 17' of pure aquatic fun.

Jumping Platform Slide

DESCRIPTION

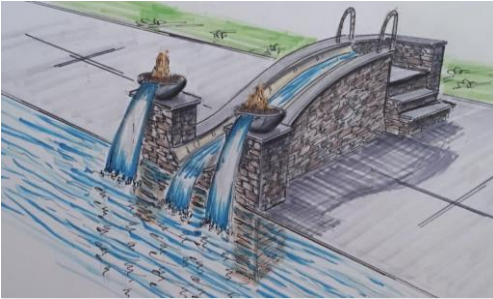

Approximate dimensions: 15' W x 7' H x 10' D with 7' W x 4' D Jumping platform with a 24" 316 Stainless Steel Formal Spillway and a 13' Huli Slide.

Feature Options

- Extended diving platform
- Lighting
- Safety railing

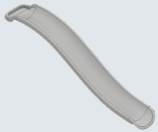

Slide Designs

Pillar Slide

DESCRIPTION

Approximate dimensions: 6-7' W x 6' H x 16' D with two Fire Bowl Spillways and a 12' Honu Slide.

Feature Options

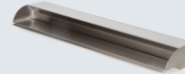

- Add Lighting

Raise Planter Slide

DESCRIPTION

Approximate dimensions: 18' W x 7' H x 12'+ D with multi-level planter boxes and two 36" and one 24" 316 Stainless Steel Formal Spillways and a 13' Huli Slide

Feature Options

- Add Lighting

American Aqua Works also designs and builds custom sectional pool slides. These slides can be designed around almost any landscape or pool feature and come in any color, length or twists and turns you desire.

ARCHWAY & GROTTO DESIGNS

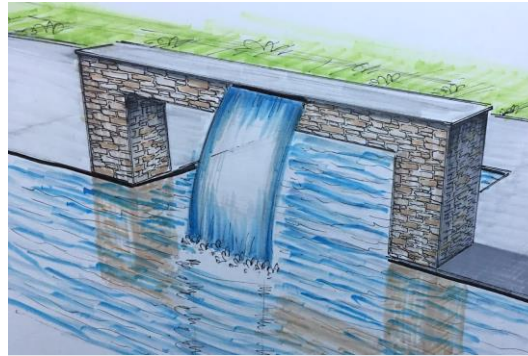

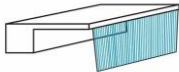

Pool Grottos are the perfect retreat from the hot sun, providing a place to relax and hang out with friends and family.

Archway Designs

Sheer Water Designs

Sheer Rain and Sheer Storm are the perfect solution for grotto & archway openings and water features over 4' high. Both products produce a sheet of water that falls straight down.

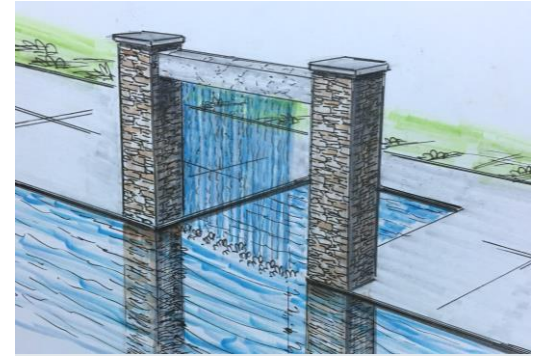

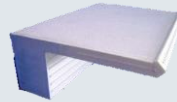

Low Arch Design

DESCRIPTION

10' W x 42" D x 5' H overall with 2' W side walls and 6' wide middle opening with a Sheer Wave Spillway.

Feature Options

- Add Lighting
- Sheer Rain Spillway
- Add Fire Bowl

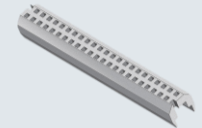

High Arch Design

DESCRIPTION

8' W x 2' D x 8'H overall with 2' W x 2' D pillars and 5' middle opening and a 4' Sheer Storm Spillway.

Feature Options

- Add Lighting
- Planter bowls

Grotto Designs

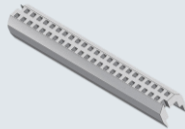

Grotto-Small

DESCRIPTION

10' W x 5' D x 5'H overall with 2' W side walls and 5' middle opening and a 36" Sheer Storm Spillway.

Feature Options

- Add Lighting

Grotto-Medium

DESCRIPTION

10' W x 8' H x 10' D pool access Grotto with one 36" Sheer Rain and two 24" Sheer Wave Spillways.

Feature Options

- Add Lighting
- Bench seating

Grotto Slide-Medium

DESCRIPTION

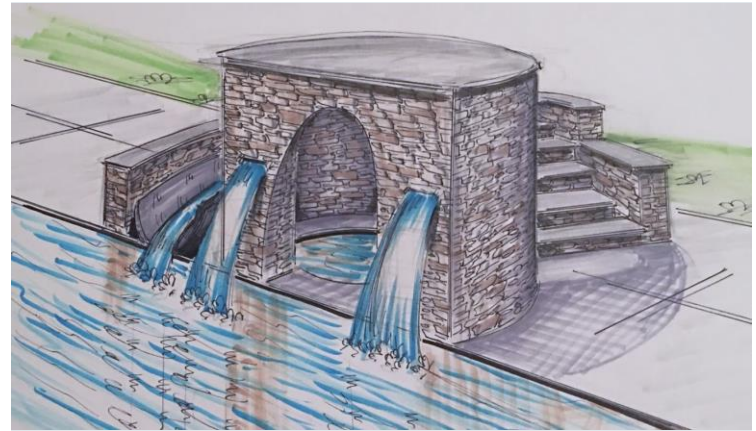

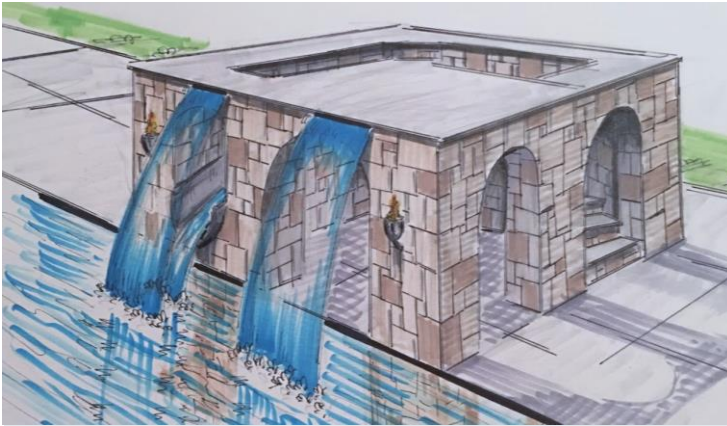

10' W x 5' D x 5'H overall with 2' W side walls and 5' middle opening and a 36" Sheer Wave spillway and a 12' Honu Slide.

Feature Options

- Add Lighting
- Bench seating

Grotto Designs

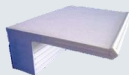

Grotto Slide-Large+

DESCRIPTION

15' W x 10' H x 15' D Deck and Pool access grotto with two 36" Sheer Wave Spillways and a 13' Huli Slide.

Feature Options

- Add Lighting
- Bench seating

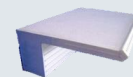

Grotto Slide-Large+

DESCRIPTION

Approximate dimensions: 15' W x 12' H x 15' D grotto and slide with two 24" Sheer Wave Spillways and a 13' Huli Slide.

Feature Options

- Add Lighting
- Bench seating

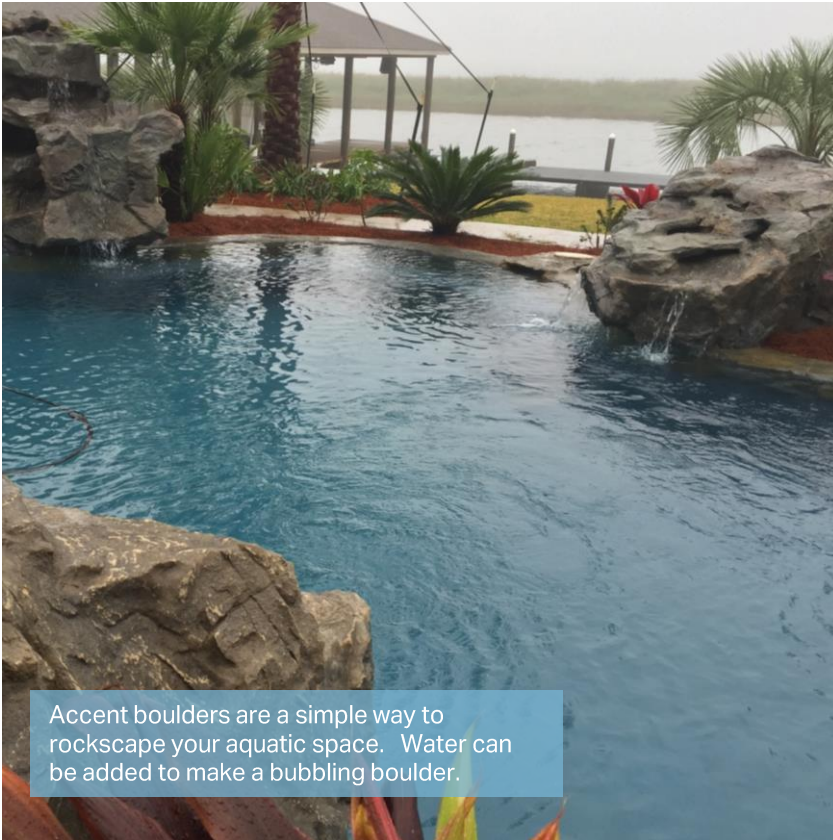

BOULDER FEATURE DESIGNS

Smaller accent boulders and jumping boulders add character and functionality to your pool deck.

Accent Boulder Designs

Accent boulders are a simple way to rockscape your aquatic space. Water can be added to make a bubbling boulder.

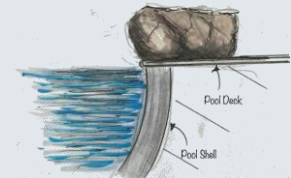

Accent Round

DESCRIPTION

4' W x 2'D x 18"H rounded, accent boulder feature.

Feature Options

- Add Hidden Spillway
- Add Lighting

Accent Boulders

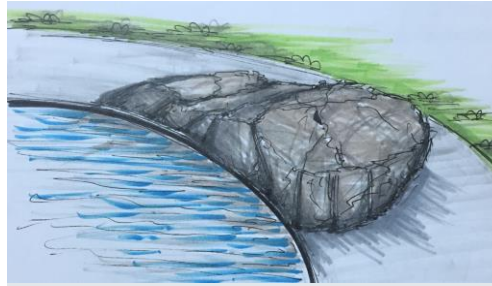

Accent Slab

DESCRIPTION

5' W x 2'D x 10"H slab accent boulder

Feature Options

- Add Hidden Spillway
- Add Lighting

Accent Triangular

DESCRIPTION

4' W x 3'D x 12"H (peak) triangular slab accent boulder

Feature Options

- Add Hidden Spillway
- Add Lighting

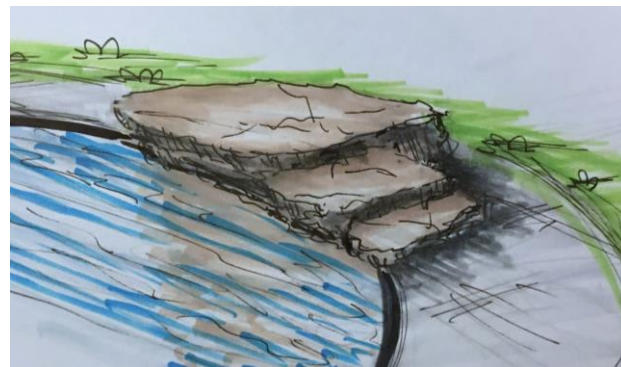

Accent Boulder Coping

For lagoon style pools, using smaller accent boulders for coping is a great way to tie in the other boulder features surrounding the pool. With the ClifRock Engineered boulder panel system you can create matching boulders & boulder - style coping that are light-weight to protect the integrity of the pool structure.

Jumping Boulders

Jumping boulders are an aesthetically appealing and thrilling alternative to the traditional diving board.

Jumping Boulder-Small

DESCRIPTION

6' W x 3'D x 18"H jumping boulder with two boulder steps and a 6" cantilever over the pool edge.

Feature Options

- Add Hidden Spillway
- Add Lighting

Jumping Boulders

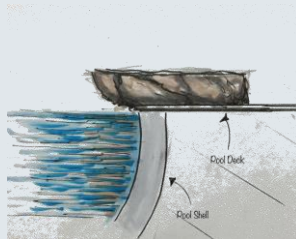

Jumping Boulder—Medium

DESCRIPTION

8' W x 4' D x 30" H jumping boulder feature with three slab rocks and a 8" cantilever over the pool edge.

Feature Options

- Add Hidden Spillway
- Add Lighting

Jumping Boulder—Large

DESCRIPTION

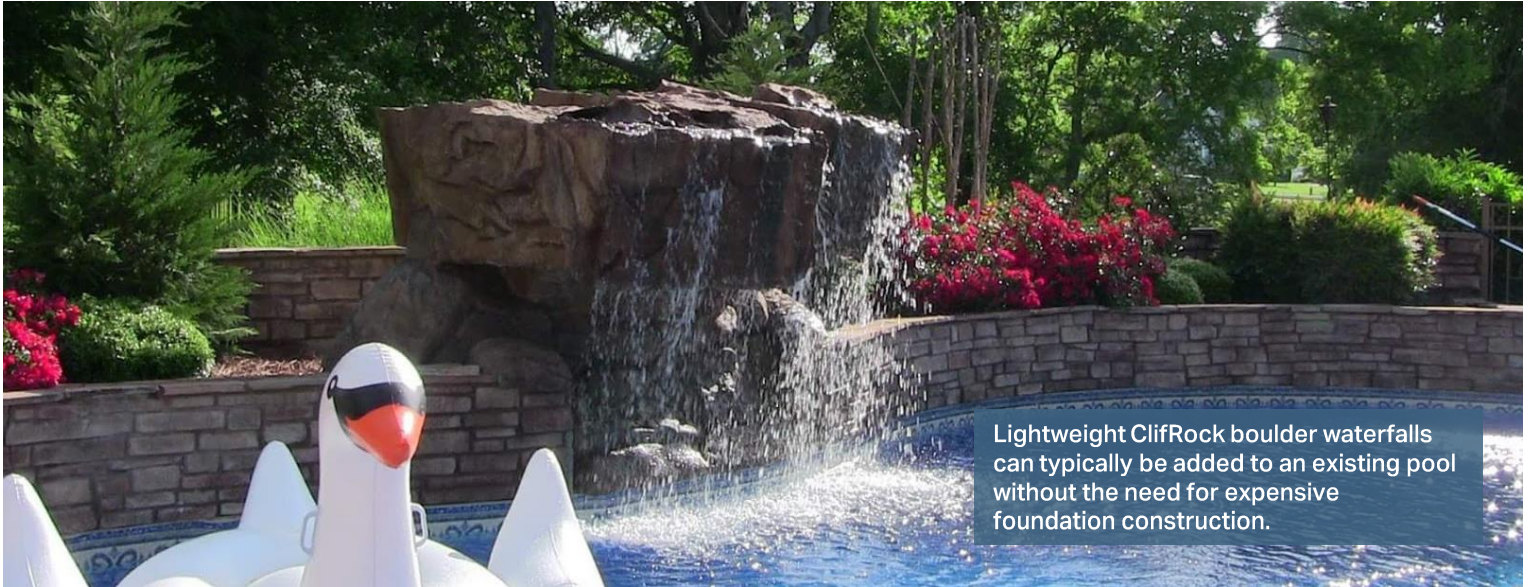

10' W x 5' D x 3' H jumping boulder feature with two large slab rocks, built-in rock steps and a 12" cantilever over the pool edge.

Feature Options

- Add Hidden Spillway
- Add Lighting

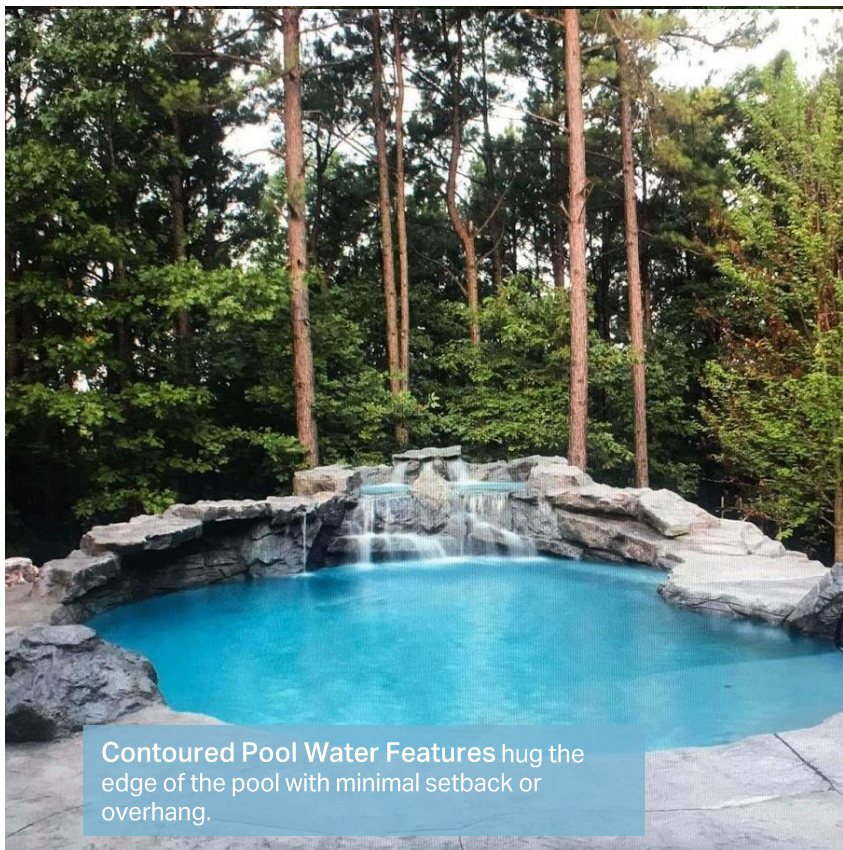

BOULDER WATERFALL DESIGNS

Lightweight ClifRock boulder waterfalls can typically be added to an existing pool without the need for expensive foundation construction.

Contour Waterfalls

Contoured Pool Water Features hug the edge of the pool with minimal setback or overhang.

Contoured Waterfall-Small

DESCRIPTION

6' W x 3'D x 3'H contoured boulder feature with one spillway.

Feature Options

- Add Spillway(s)
- Add Lighting

Contour Designs

Contour Waterfall-Medium

DESCRIPTION

8'W x 3'D x 4'H contoured boulder feature with 2 spillways.

Feature Options

- Add Spillway(s)
- Add Planter(s)
- Add Lighting

Contour Waterfall-Large

DESCRIPTION

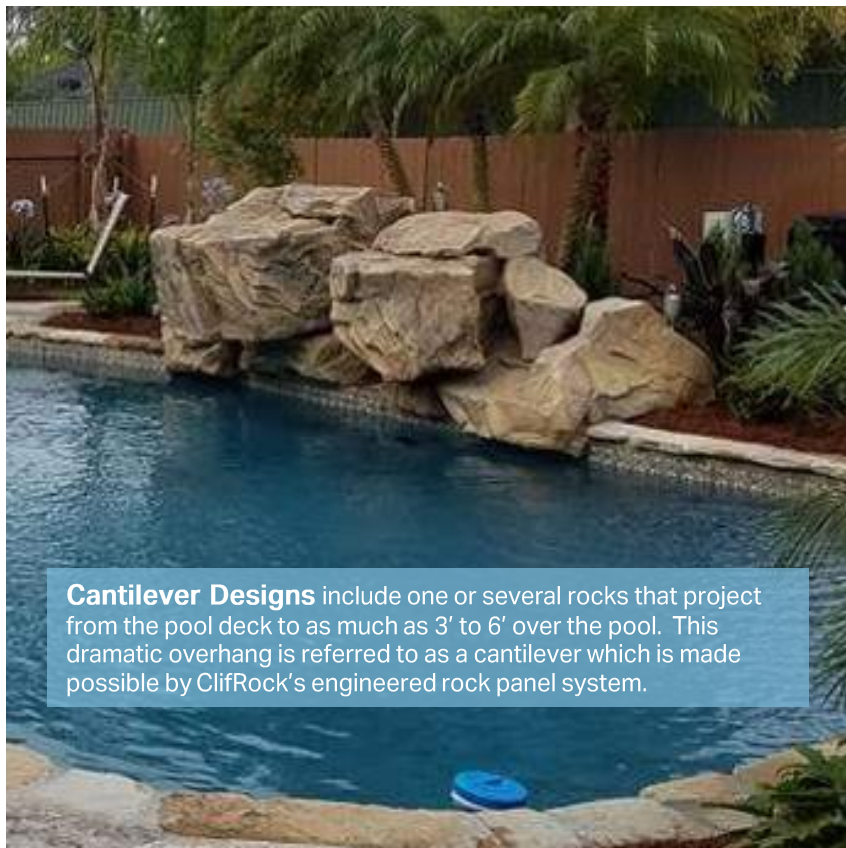

12'W x 5'D x 6'H contoured boulder feature with 3 spillways.

Feature Options

- Add Spillway(s)
- Add Planter(s)
- Add Lighting
- Add Fire Feature(s)

Cantilever Waterfalls

Cantilever Designs include one or several rocks that project from the pool deck to as much as 3' to 6' over the pool. This dramatic overhang is referred to as a cantilever which is made possible by ClifRock's engineered rock panel system.

Cantilever Waterfall-Small

DESCRIPTION

6' W x 3'D x 3'H and a 2' overhang over pool's edge and one spillway.

Feature Options

- Add Spillway(s)
- Add Lighting

Cantilever Designs

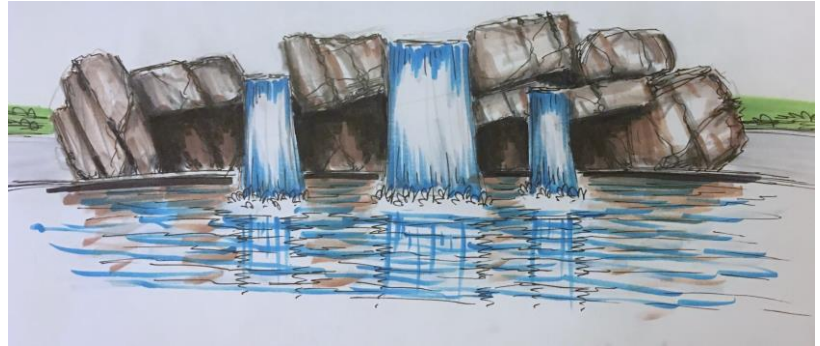

Cantilever Waterfall-Medium

DESCRIPTION

10'W x 4'D x 4'H cantilever boulder feature with 3' overhang over pool's edge and one spillway.

Feature Options

- Add Lighting
- Add Spillway(s)
- Add Planter(s)

Cantilever Waterfall-Large

DESCRIPTION

15'W x 6'D x 6'H cantilever boulder feature with a 4' overhang over pool's edge and 3 spillways.

Feature Options

- Add Lighting
- Add Spillway(s)
- Add Planter(s)
- Add Fire Feature(s)

Cascading Waterfalls

Cascading Water Features include multiple boulders and basins that are set back from the edge of the pool and water cascades into the pool.

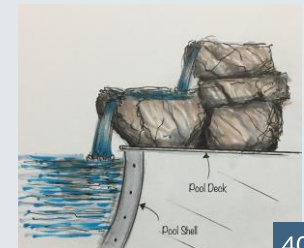

Cascading Waterfall-Small

DESCRIPTION

6' W x 6'D x 4'H cascading boulder feature with 2 spillways.

Feature Options

- Add Lighting
- Add Planter(s)

Cascading Designs

Cascading Waterfall-Medium

DESCRIPTION

10'W x 8'D x 5'H cascading boulder feature with 3 spillways.

Feature Options

- Add Lighting
- Add Fire Feature(s)
- Add Planter (s)

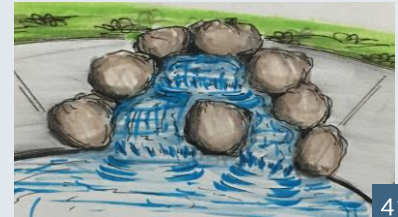

Cascading Waterfall-Large

DESCRIPTION

15'W x 10'D x 6'H cascading boulder feature with 3 spillways.

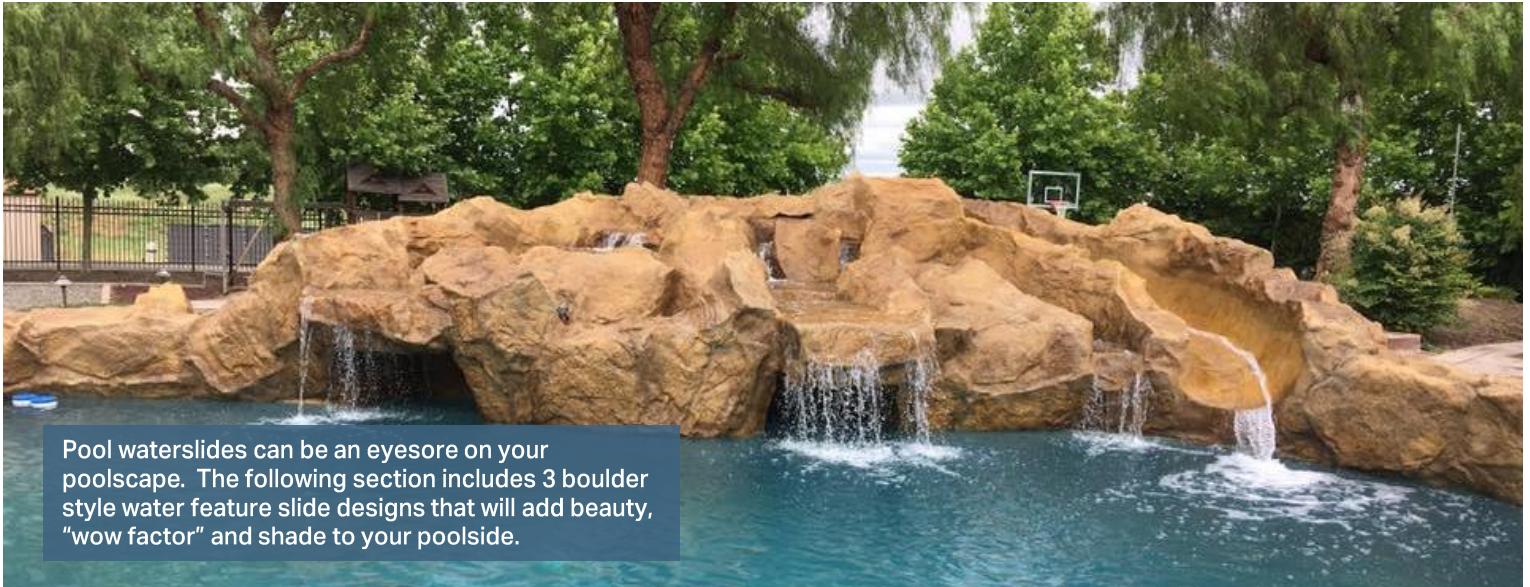

Feature Options

- Add Lighting
- Add Fire Feature(s)
- Add Planter(s)

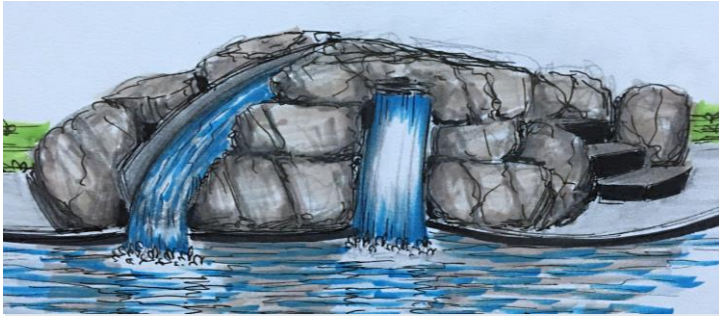

BOULDER WATERSLIDE DESIGNS

Pool waterslides can be an eyesore on your poolscape. The following section includes 3 boulder style water feature slide designs that will add beauty, "wow factor" and shade to your poolside.

Slide Designs

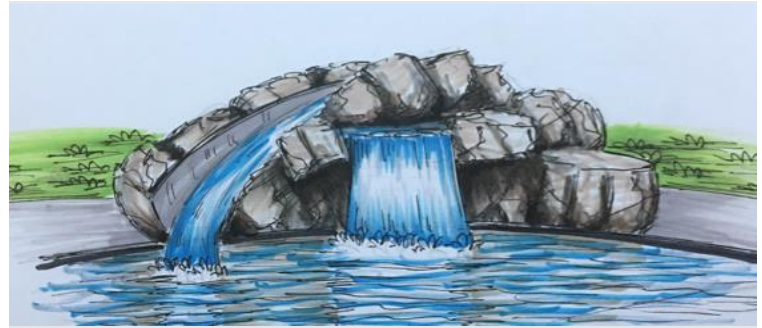

Contoured Slide

DESCRIPTION

10'W x 10'D x 5'H contoured boulder feature with one main spillway and a 12' one-piece slide.

Feature Options

- Add Spillway(s)
- Add Lighting
- Add Fire Feature(s)
- Add Planter(s)

Cantilevered Slide

DESCRIPTION

12'W x 12'D x 6'H cantilevered boulder feature with one main spillway and a 12' one-piece slide.

Feature Options

- Add Spillway(s)
- Add Lighting
- Add Fire Feature(s)
- Add Planter(s)

Slide Designs

Cascading Slide

DESCRIPTION

12'W x 15'D x 6'H cascading boulder feature with 3 total spillways and a 12' one-piece slide.

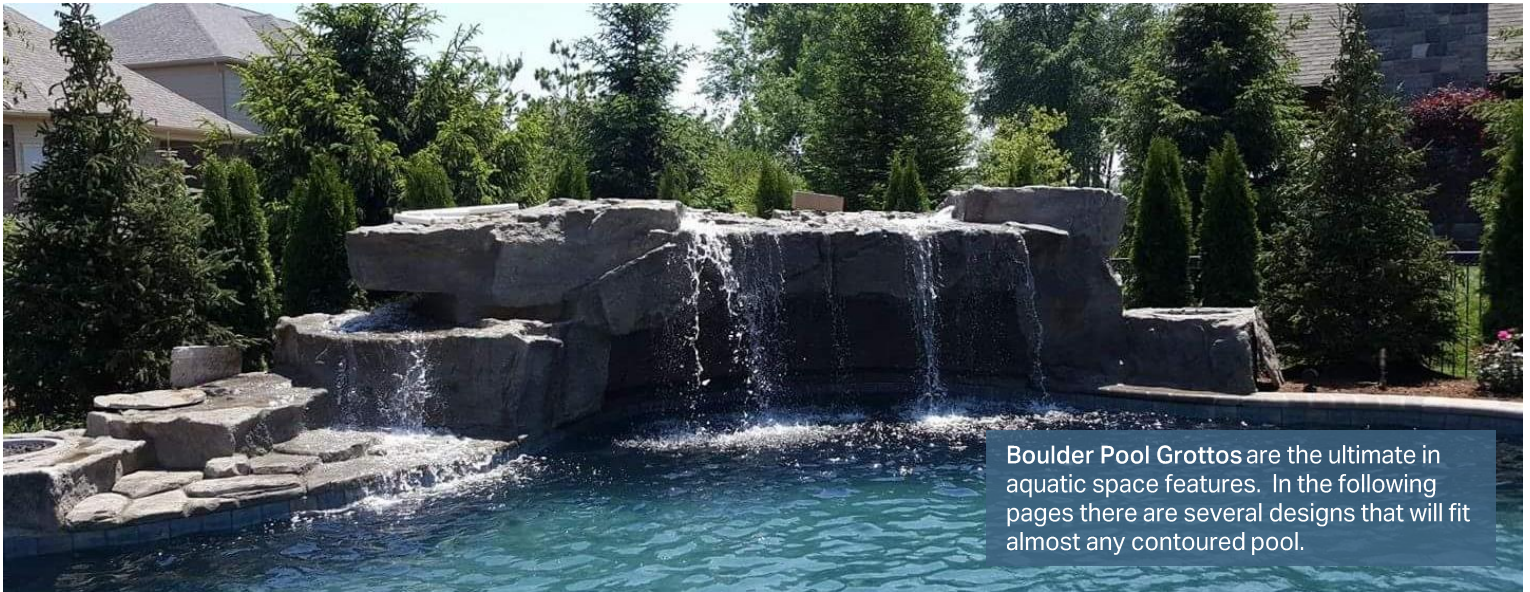

Feature Options

- Add Spillway(s)
- Add Lighting
- Add Fire Feature(s)
- Add Planter(s)

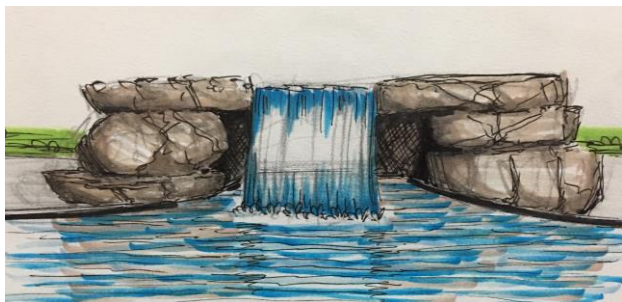

BOULDER GROTTO DESIGNS

Boulder Pool Grottos are the ultimate in aquatic space features. In the following pages there are several designs that will fit almost any contoured pool.

Grotto Waterfalls

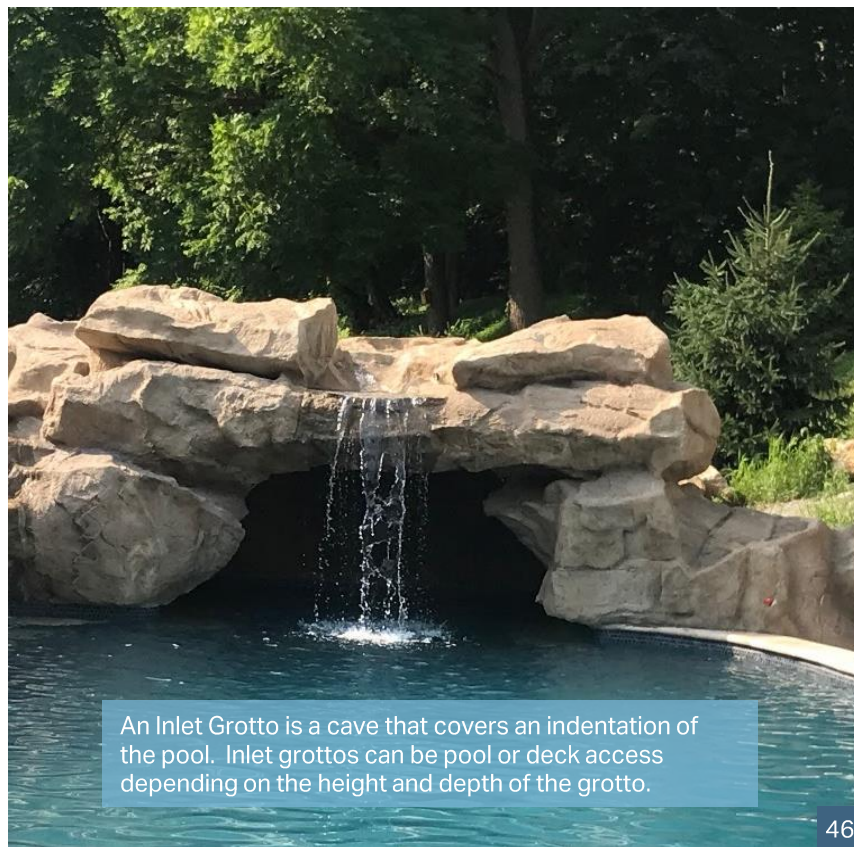

Inlet Grotto-Small

DESCRIPTION

10'W x 6'D x 5'H boulder grotto feature with one main spillway.

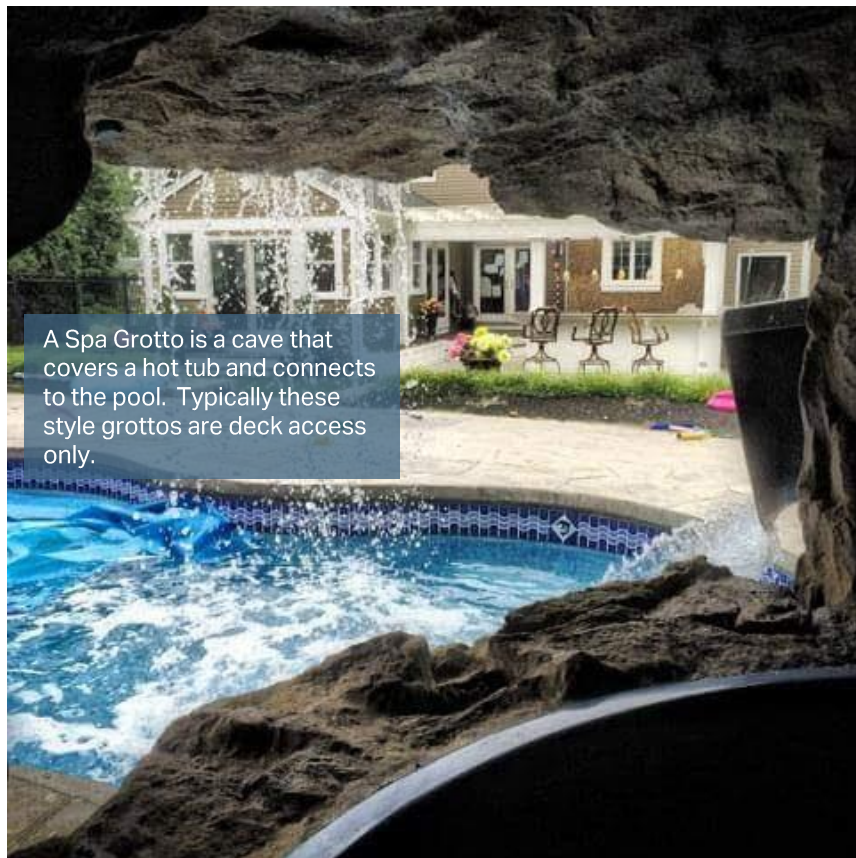

Feature Options

- Add Spillway(s)
- Add Lighting
- Add Fire Feature(s)
- Add Planter(s)

An Inlet Grotto is a cave that covers an indentation of the pool. Inlet grottos can be pool or deck access depending on the height and depth of the grotto.

Grotto Waterfalls

A Spa Grotto is a cave that covers a hot tub and connects to the pool. Typically these style grottos are deck access only.

Spa Grotto-Small

DESCRIPTION

10'W x 10'D x 8'H boulder grotto feature with one main spillway.

Feature Options

- Add Spillway(s)
- Add Lighting
- Add Fire Feature(s)
- Add Planter(s)

Grotto Designs

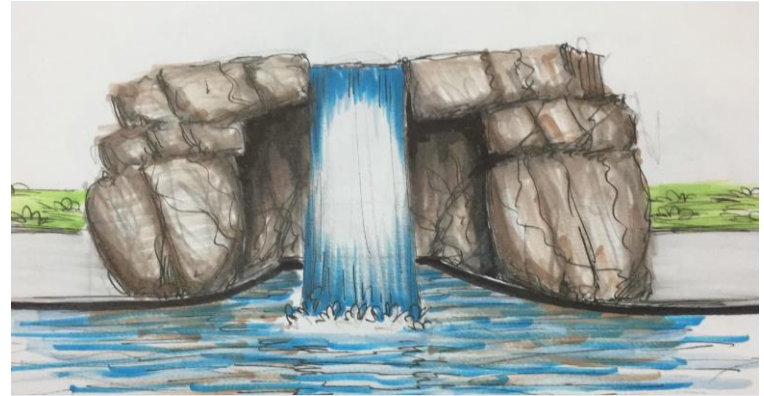

Spa Grotto-Medium

DESCRIPTION

15'W x 15'D x 8'H boulder grotto feature with one main spillway.

Feature Options

- Add Spillway(s)
- Add Lighting
- Add Fire Feature(s)
- Add Planter(s)

Inlet Grotto-Medium

DESCRIPTION

10'W x 8'D x 6'H boulder grotto feature with one main spillway.

Feature Options

- Add Spillway(s)
- Add Lighting
- Add Fire Feature(s)
- Add Planter(s)

Grotto Designs

Spa Grotto-Large

DESCRIPTION

20'W x 20'D x 10'H boulder grotto feature with one main spillway.

Feature Options

- Add Spillway(s)
- Add Lighting
- Add Fire Feature(s)
- Add Planter(s)

Inlet Grotto-Large

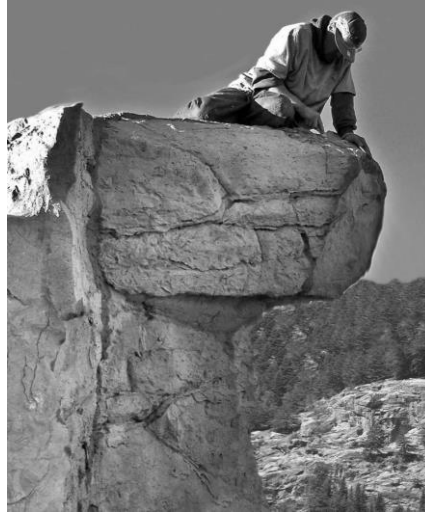

DESCRIPTION

15'W x 15'D x 8'H boulder grotto feature with one main spillway.

Feature Options

- Add Spillway(s)
- Add Lighting
- Add Fire Feature(s)
- Add Planter(s)

AUTHORIZED INSTALLERS

National Network

ClifRock Outdoor Living Construction System is only available through local contractors that are factory qualified, trained and authorized to offer, design and install. You can rest assured you are in the hands of a professional and our product is backed by a full structural warranty.

For more info visit:
www.ClifRock.com/installer

National Recognition

ClifRock Boulder Panel and Masonry Panel systems have been nationally recognized as a reliable construction method. Our work has been featured on multiple cable networks and over a dozen shows, such as Pool Kings, Yard Crashers and Turf Wars.
